FAQs

How many titles can I check out at one time and how long is my checkout period?
You can check out an unlimited number of audiobooks, e-books, and magazines. Audiobooks and e-books can be checked out anywhere from 1 day to 3 weeks. Magazines are unlimited.

Can I renew a title?
Yes. Audiobooks and e-books can be renewed. They will automatically renew for 3 weeks.

What is a wishlist and how does it work?
The wishlist allows you to save audiobook and eBook titles that you may want to check out or reference later. It is like your personal bookshelf for quick access to favorite books. To add titles to the wishlist, click the “Add to Wishlist” button on the title details page. To view titles in your wishlist, click the three-lined “Menu” icon at the top left of the screen and select “My Account”, and then “Wishlist.”

How do I find my checkout history?
The titles you have checked out can be found in the three-lined “Menu” icon under My Account, and then “History” section, which shows the last six titles checked out. To see your entire history, click the “View All” button.

Why are there two Chapter 1’s listed?
The chapters for the book may be split across multiple audio tracks for ease of downloading, so the program initially downloads the first five minutes of audio and then completes the remaining chapter downloads as you listen. If any single chapter is too large to download in a single file, it is split.

How much space will it use?
This will be dependent on the length of the title. For example, a title with a duration of 18 hours is approximately 25 GB.

Can I return a title early?
Yes, go to the “Checked Out” page under the three-lined “Menu” icon on the website, click the “X” in the upper-right corner of the titles card or click the “Return” button under the title information.
