

Internet Access and Computer Use Policy

Purpose:

Prescott Public Library provides access to computers and the Internet as an integral part of the library's mission to provide access to information. All library users are expected to use these resources in a manner that is respectful and considerate of other library customers.

General Policy:

Prescott Public Library provides access to computer and Internet resources equally to all library patrons and upholds the right of each individual to have access to constitutionally protected material.

Library computers and network systems may not be used for any purpose that violates federal, state, or local laws and library policies.

The Library complies with [Children's Internet Protection Act \(CIPA\)](#) and [ARS §34-502](#) regarding computer access by minors. All computers with Internet access use software to block visual depictions that are child pornography, harmful to minors or obscene.

Library users should report any misuse of computer or Internet access to any library staff member.

Not all information on the Internet is accurate, complete, up to date or current. Users are urged to be good information consumers, critically evaluating all information found on the Internet.

Library staff encourages parental supervision and participation in the use of all library resources, including Internet resources.

- Using a library card not your own to access public computers
- Harassing, libeling or slandering others
- Disrupting or interfering with other library users

- Those without library cards may request guest passes at the Ask a Librarian Desk or the Youth Desk.

- Generally the use of one computer is limited to one person. The purpose of this guideline is to reduce noise and respect the space of other patrons. Special case exceptions may be made to this rule, including in the youth areas of the library.
- Personal devices may be used in the library at your own risk provided cords do not interfere with walkways or the use of the device does not alter the setup of any library equipment.
- Computers in the Teen Zone are only for the use of library users aged 12-18 years of age.
- Computers in the Children's area are only for use of children and their accompanying caregiver.

Security and Privacy

- All public access computers are filtered to comply with [Children's Internet Protection Act \(CIPA\)](#) and [ARS §34-502](#) regarding computer access.
- The library will not release information on the use of specific Internet resources by members of the public except as required by law or as necessary for the proper operation of the library.
- The library cannot be responsible for loss of data or incorrect use of programs and does not accept liability for any direct or consequential harm to a computer user's personal equipment or other property that may result from use of Prescott Public Library computer or WiFi network.
- Customers create, store and use personal files at their own risk.

Sanctions

- Library staff will intervene to stop prohibited use of computer equipment and resources.
- Illegal acts and noncompliance with Library Computer Use Policy involving City computers or network will result in library computing privileges being withdrawn. Illegal acts may also be subject to prosecution by local, state or federal authorities. (See [Standards of Behavior Policy](#).)
